2018 International Textbook Symposium

Invitation

Since 2011, the Korea Textbook Research Foundation has held the International Textbook Symposium annually to highlight the latest textbook-related systems and practices of countries around the globe and newly explore future directions for the development of textbooks.

This year, the Symposium is dedicated to the subject of 'Changes in Educational Environments and Textbooks,' bringing together various local and international stakeholders, from scholars to publishers, educators, parents, and students, for in-depth discussions from different perspectives.

Today, our society is going through rapid changes such as the Fourth Industrial Revolution, a falling birth rate, and an ageing population. In order to proactively respond to the drastic changes of our time, our nation is pushing strongly for educational reforms at the state level. In this context, we hope that this Symposium will provide a precious opportunity to share ideas and experiences and build collective wisdom for the advancement of our textbook systems to support and ensure the successful implementation of educational innovation.

We sincerely hope that you will be able to take time out of your busy schedule to join us and help make our Symposium a meaningful and fruitful occasion with your valuable insights.

Thank you.

October 2018

Chairman, Korea Textbook Research Foundation **Kim Hong Gu**

Program

Program	Time	Contents	
Enrollment	13:00~13:30 30'		
Opening	National ceremony	13:30~13:32 2'	
	Opening address	13:32~13:34 2'	• Kim Hong Gu(Chairman, Korea Textbook Research Foundation)
